www.guestandphilips.co.uk
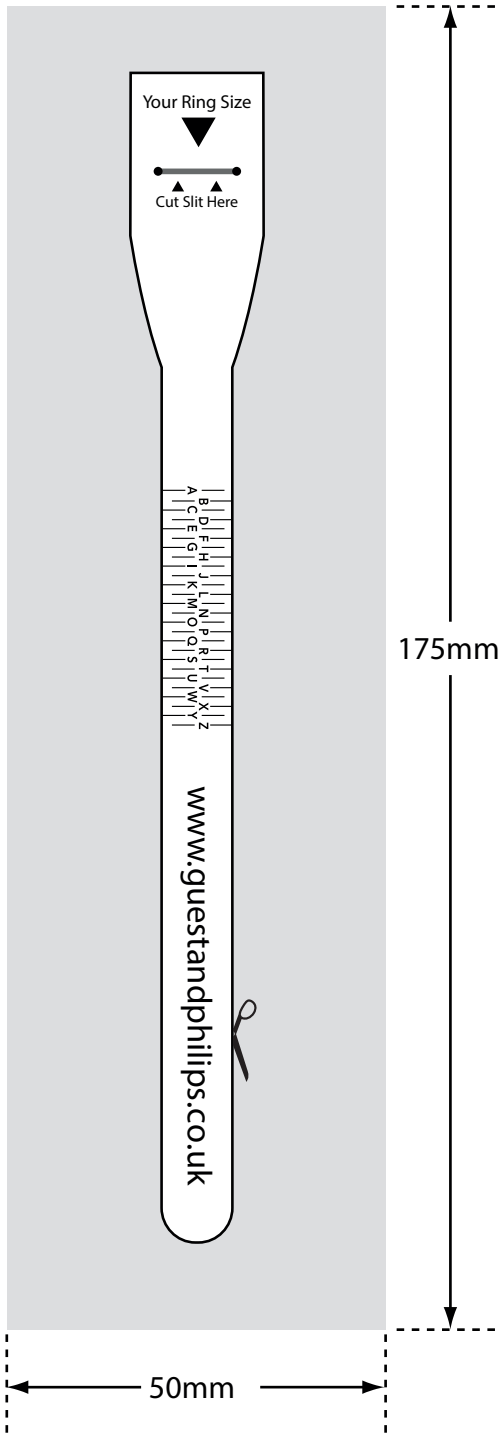

175mm

50mm

How to measure your ring size:

1. Measure the outer grey box on your print out and ensure that it is 175mm by 50mm. If not then check your printer settings, they should be set to either 'Do not scale' or 'Scale 100%'.

2. Cut out the actual ring sizer band and make a slit in the end where shown.

3. Push the other end through the slit and slip it over the finger you want the ring to fit.

4. Adjust the sizer band so that it is sitting comfortably around your finger.

5. Check that you can remove the sizer band over your knuckle easily.

6. Read off the letter indicated by the arrow 'Your Ring Size', and that is your ring size.

Please remember:

1. To ensure that the sizer can slide on and off your finger at the ring size chosen.

2. Do not pull on the sizer tightly as this will give you the wrong ring size.
